

Email From Defend Lakeport to the Councils of Cramahe and Alnwick/Haldimand regarding the objectionable photographs posted on the Sharpshooter website.

Elected Council Members:

This is from the SHARPSHOOTER WEBSITE, which has been recently updated, showing Mayor Martin, Mayor Logel and Deputy-Mayor Latchford with Sharpshooter personnel in photographs. Beside it is the following statement:

Local Community support

Sharpshooter has the support of the local council, including a Resolution #18-38 in the Township of Cramahe concluding that “this use may be permitted in this zone subject to meeting the federal licensing requirements”.

The picture of Gilligan’s Pub has been removed, Of Course, and these photos have been inserted instead. This is completely outrageous on the part of Sharpshooter, and we sincerely hope that both A/H and Cramahe Townships will insist that they be removed immediately from the Sharpshooter Website.

What is the meaning of these pictures? When were these pictures taken? Why were they RECENTLY posted on Sharpshooter’s Website? What is going on here? What are citizens not being told?

This is completely unacceptable on so many fronts.
