Well, well. On some website somewhere is a photo of myself welcoming a contingent from “Sharpshooter” before a meeting held to discuss what is required (site plan, site plan, site plan) to proceed with negotiations to establish a marijuana grow op industry. We welcome all biz discussions. We are open to all comers.

But it does NOT mean endorsement carte blanche: we start to talk and work forward. And that’s where Cramahe Twp. is at: we have NO site plan for a proposed industrial marijuana growing plant in Cramahe Twp. yet presented from Sharpshooter for a council decision.

Pay attention: we are not rubes. Do NOT ever assume so.

Whatever internal angst this company is enduring is NOT on the heads of taxpayers or Cramahe Twp. council.
